

LIFE IS TIME™
 When minutes count
EMERGENCY OXYGEN
 can be the difference between
LIFE OR DEATH

**THIS UNIT
 COULD SAVE
 YOUR LIFE**

Only the very best and complete
EMERGENCY OXYGEN UNIT
 provides supplemental oxygen
 for First Aid in **TWO WAYS:**

- **INHALATOR**
 ... for a breathing victim
 and
- **CPR RESUSCITATOR adjunct**
 ... for a non-breathing victim

LIFE® OxygenPac features a LIFE® mask for "mouth-to-mask" resuscitation with a one-way valve. This eliminates direct contact with the victim's mouth and nose while resuscitating a non-breathing person. Maximum hygiene is provided by the one-way valve, which eliminates transmittal of fluids and contagious diseases. LIFE® masks fits both adult and child.

(Patented)

LIFE® OxygenPac MEETS OR EXCEEDS ALL GOVERNMENT AND FDA REQUIREMENTS. A NON-PRESCRIPTION DEVICE INTENDED FOR EMERGENCY USE.

LIFE® OxygenPac

should be part of your first aid program.

- SIMPLE and EASY TO USE
 with external Two-Step Instructions and Clear Cover
- Wall Mounted for Recognition and Accessibility
 always available on display (20" x 6³/₈" x 9")
- Easily Portable with Convenient Handle (16 lbs.)

IDEAL LOCATIONS FOR THE LIFE® OxygenPac ... WHEREVER THERE ARE PEOPLE !

INDUSTRIAL/FACTORY

PUBLIC FACILITIES

ENTERTAINMENT/RECREATION

OFFICES

LIFE® OxygenPac is attractive. Prominently displayed, it makes the simple but strong statement, "This Organization Cares For Its Employees And Visitors."

American Medical Association
GUIDELINES ON OXYGEN EQUIPMENT IN CPR...
as published by the American Heart Association

- "...supplemental oxygen should be used as soon as it is available..."
- "...oxygen should not be withheld for fear of suppressing respiration..."
- "The highest possible oxygen concentration (preferable 100%) should be administered as soon as possible to all patients with cardiac or pulmonary arrest or other patients with suspected hypoxemia regardless of cause."
- "Masks equipped with one-way valve ... are recommended for mouth to mask ventilation."

EMERGENCY OXYGEN INSTRUCTIONS

1. Move lever → ON
2. Place mask over nose and mouth

IF BREATHING HAS STOPPED, START MOUTH-TO-MASK RESUSCITATION (BLOW UNTIL CHEST RISES, EVERY 5 SECONDS)

612 MODEL LIFE® OxygenPac

- SAME SUPERIOR FEATURES of standard LIFE® OxygenPac
- PLUS: NORM & HIGH FLOW RATES Regulator with "Click-Stop" two settings
 - "NORM" - 6 LITERS PER MINUTE for GENERAL emergency situations deliver approximately 45% inspiration concentration to the average adult breathing victim as an INHALATOR
 - "HIGH" - 12 LITERS PER MINUTE for EXTREME emergency situations delivers oxygen concentrations approaching the recommended 100% inspiration concentration as an INHALATOR for breathing victims and as a RESUSCITATOR for oxygen supplemented mouth-to-mask resuscitation for a non-breathing victim.
- SIMPLE OPERATION IS EASY-TO-USE LIFE® OxygenPac 612 MODEL cannot be turned to below 6 LPM (lower flow rates are not advised when used with mask delivery.)

APPROVED
REGULATOR

Flow Length90 minutes + U.S.P. oxygen
Liter flow 6 LPM constant
Style Piston

OXYGEN PAC UNIT

H x W x D 20" x 6 3/8" x 9"
Weight 16 lbs.

Component Materials:

Case Polyethylene
Viewing Cover..... Lexan® Polycarbonate
Tight seal protects unit from dust and moisture

GAUGE

Readout Constant Cylinder contents
"Full" indicator Green wedge
Maximum pressure rating 4000 PSI

SHUT-OFF VALVE

"On-Off" lever Adjustable ratchet
Thread 1/2" - 14 NGT taper
Safety burst relief valve 3025 PSI
Refill Adaptor C. G. A. # 870

LIFE® OxygenPac TECHNICAL SPECIFICATIONS

CYLINDER (included)

Fill capacity **566 liters**
"Fill" pressure.....2015 PSI
